In 1976, Ronald Reagan, at the Republican Convention, announced he placed a letter in a time capsule to be opened in Los Angeles in 2076. In a speech given at that convention, Reagan expressed his concern that the people of 2076 would never get to read the letter because it spoke of individual freedom. America, 2076 the United States has been fundamentally changed, and the government controls every aspect of daily life. Medical decisions, consumption, speech, transportation, even the right to be alive. All in the name of social justice. Michael Adams, a journalism student, writes an article about Americas Tricentennial and wonders if his generation understands what it means to be an American. He discovers a plot to destroy the Reagan letter, its message no longer welcome in a country where liberty has died and tyranny rules. He turns to the man who introduced him to Reagans ideas Calvin Marshall, a history professor who is hiding, and only his granddaughter, Michael s ex-girlfriend, Jackie Perez, knows of his whereabouts. Soon, Michael goes on the run, persecuted by a federal agent determined to silence him at any cost. To keep the letter from being destroyed, he has to face the agent, community organizers, rats, strippers, high-speed trains, bandits, Obamobiles, a terrible family dinner, and a bad movie. As he continues to run for his life, Reagans warning becomes all too real. They probably wont get to read the letter at all because it spoke of individual freedom . . .
